

The Spirit of Precision

Environmental principles

With its environmental principles Hitega Präzisionsmechanik GmbH commits itself to sustainability. The company sets itself the task to reduce its own effects on the environment.

Hitega strives to:

- encourage concern about natural resources
- its activities in an environment friendly manner
- apply the environmental principles like the commitment to continuous improvement , the adherence to legal requirements and the training of the awareness of the employees
- promote the responsibility for the environment along the value chain and to encourage the suppliers to adopt environmental standards
